Arrive Safely At Destination

Rev. S. R. Hunt writes from Clairmont asking us to advise friends here that the family had a very pleasant journey which lasted 22 hours with two hours more to go at time of writing. The country and crops are looking splendid, and the party were all in excellent spirits and enjoying the trip. The card was posted on July 8th and they expected to sleep in their new home that night.

Courtesy Extended Casual Players

In answer to the several inquiries as to a fee for people who wish to play only a few games the remainder of the season, the executive have decided that, any such people are welcome to play any afternoon free of charge from now on.

Local Dog Wins Many Prizes

Mrs. W. S. Ryan's English bulldog, "Irish Boy," returned from the dog show at Calgary, held under the auspices of the Alberta Kennel Club, covered with glory and ribbons. His winnings included the following: 1st prize, Novice; 1st prize, Limit; 1st prize, Open; Winner; Best of Breed; and the following specials: Best of Breed, Alex Martin, sporting goods; Best Novice, Holmpatrick Kennels.

Mr. and Mrs. J. Friesen and family left for Vulcan this week where Mr. Friesen takes charge of the U.G.G. elevator. During their residence here they made many friends, both being active socially and in other ways. Everyone will wish them success and happiness in their new home.

Mr. and Mrs. B. N. Woodfull of Champion announce the engagement of their daughter Gladys Mary, to William Laidlaw, son of Mr. and Mrs. A. R. Laidlaw of Calgary. The marriage will take place early in August.

A delegation of ratepayers waited on the school board on Thursday evening with regard to the selection of a non-resident as janitor of the school. Explanations were made by the trustees as to the cause of their selection in this matter.

A. McCullough resigned recently from the board of trustees of the Champion Consolidated School District and it is understood steps will be taken at an early date to fill the vacancy. Mr. McCullough was chairman of the board.

Dr. and Mrs. Freeze returned from a trip extending over the past three months early in the week, the doctor having greatly improved during their absence. Many friends welcomed them home.

The W.I. whist drive held at the home of Mrs. Alexander on Monday was a very enjoyable affair. The prize winners were: Mrs. Geo. Nelson and Mrs. McIntyre and Messrs. Alexander and Goo. Nelson. There was a good attendance.

The P. Holm and Joe Cooper families spent a day fishing at Slide Lake, just across the international boundary. The catch was immense both in quantity, size and quality.

Nominations Monday, July 21

Next Monday is nomination day throughout the Dominion with the exception of some seventy seats in which nominations took place two weeks before the election. In Bow River the contest will be between E. J. Garland and Dr. Graham, U.F.A. and Conservative candidates, respectively.

To Demonstrate Interior Decoration

A demonstration in interior decoration will be held in the United Church, Champion, on July 19, 21 and 22. Classes will be from 9:30 a.m. to 11:30 a.m. and from 2 p.m. to 5 p.m., sharp. Every woman interested is cordially invited to attend, and a special invitation is extended to the Young Ladies of this community. This demonstration is free of charge under auspices of Champion Women's Institute.

Card of Thanks

Holy Cross Hospital, July 12. Here is many many thanks for the kind remembrances from all you good people in Champion.

They tell me I have still six days to linger here, and for those that will and must come after me, I would advise them not to pick on such hot weather as this.

Right now I am sure a fit spirilla subject, what with my bandages and half dozen Sporom or hot water bags clinging to my side, until I look like a Highlander going to a christening.

The cuts are fine, these glorified puddings and the boiled milk. Oh! for just a quart of Wise's Milk right off the ice. Well folks by the time this is in print, I will be on my feet again.

Sincerely, GEO. CAMPBELL

THURSDAY, July 17, 1930

NOTES AND COMMENT.

The high temperature on Monday, coupled with a warm wind, was distinctly hard on the wheat and other grain fields and considerable damage was done. Showers to the west and northeast relieved the situation in these sections. Cooler weather has supervened and everyone is breathing easier.

The Financial Post sees in the restrictions placed on the importation of wheat by European countries the result of Pool activities in this country and elsewhere, together with claims made on behalf of these organizations of raising the price of wheat. Just at present it looks somewhat as though the Post might be right.

There was such a large representation from Champion and district at the Calgary Stampede that individual action is impossible. Everyone seems to have enjoyed themselves and on the whole report the stampede to have been fully as good as in former years.

A communication has been received at this office with reference to the school janitor's position which has been held over owing to the violence of the statements contained. We believe the writer in cooler moments will agree with us that no good could result from a discussion along such lines. If the janitor was unsatisfactory he should have been dismissed instead of being left to make a futile tender, as his long service in the position could not fail to indicate his general ability in his work. His dismissal would have left him entirely free to secure a similar position elsewhere if he wished and at the same time would have had to local tenders being made by persons who would not bid against the man who had held the job so long.

D. W. Harper and family returned this week from their holidays spent on the Livingstone river in the mountains. The fishing was not extra good until the last day spent there.

A sidewalk is being constructed from the corner at C. McLean's residence to the corner at P. O. Sommers. L. W. Hoden is in charge of construction.

E. Williamson and family attended the Calgary Stampede intending to proceed to Vancouver but owing to pressure of business at home abandoned the latter trip.

Mr. and Mrs. Peters of Three Hills, Alma and Gordon Burns of Edmonton and Miss Edna Marshall of Lethbridge, were visitors at the home of Mr. and

Mrs. S. O. Mifflin.

So successful was the horseshoe tournament at Neil McLeod's on Thursday that a second event of the kind will be put on at L. M. Groves at a date in the near future.

Miss R. M. Melrose of Gleichen succeeds Miss A. Irvine as high school assistant on the Champion Consolidated School staff, and Mr. R. D. Faris of Trochu will be vice-principal, in charge of grades VII and VIII in the public school.

F. Clever, J. Kulpas, George Depue and Tom Sletten are the members of a fishing party for the Gap on Friday and it is hoped they got there before the rain started. They were well provisioned and no anxiety is felt on their account but it is feared they will get very wet.

The Chronicle goes to press a day late this week with rain falling continuously after a continuous downpour since midnight on Friday. The benefit to the crops can scarcely be overestimated as the situation demanded moisture to prevent heavy losses in yields.

BOW RIVER CONSTITUENCY

“Canadian Markets For The Canadian Farmer”

and Aid in the Recovery of Foreign Markets

During the last 10 years Canada's Exports of livestock have Decreased by 65 per cent

In the year ended March 1930 we imported:

Forty-two million pounds of butter and

Forty-one million pounds of meat

In 1920 we exported to England 220 million pounds of pork.

During the nine months ended March, 1930, we only exported 21 million pounds to the same place.

The Pending Completion Of Hudson Bay Railway Will Stimulate Mining Interest

With the Hudson Bay Railway in its final season of construction, and with improved passenger and freight service, exploration of mineral properties which the Bay line franchises have started on Bay will be really important scale for the first time. Several companies and syndicates have launched programmes to develop groups of mines in the neighborhood of the new steel trail.

A dull mineral season is in view for the region north of Churchill, but reports circulating in mining circles point to a great deal of activity along the Hudson Bay Railway.

Within the past few weeks, half a dozen parties have travelled north on the line to explore promising areas outside of those now in active mines northeast of The Pas.

However, it is unlikely that prospectors will be allowed to travel north of The Pas until this fall, as no arrangements have been made with the federal government. More than one well-known mining man from northern Ontario has reached the Pas this summer with a hope of getting an appointment to Churchill. But no one has been appointed. In one instance, a man raised an argument here over the fact that an eastern station agent had claimed his claim was right through to Churchill and he had been denied the right.

To the Pas, only to find that he could not get to the port. Railway officials explained present regulations to the prospector, and he has to content himself to posturing and talking to other men, as it is reported. The Pas, that efforts will also be made this year to draw down Indian reports that deposits of native silver lie in that great territory south of the Hudson's Bay Rail, a line bounded by God's River on the east, and Oxford Lake on the south.

Last year a few samples of beautiful silver were found in the country way inland from The Pas from York Factory. It was stated then that a York Factory man and some Indian companions had found the native metal scattered about the York River angle. Excellent detective work on the part of mining engineers failed to show up the origin of the native silver, and the find—if it failed to be a find—was never heard of again.

For years, Indian lures have hinted of spectacular silver to be found in that 62,500 square miles of territory. This season may see a clatter to the silent dreams of the Indians, and who knows but that a second Cobalt may be coming up in that little explored region south of York Factory on Hudson Bay.

Power Resources of Manitoba

Claimed That 72 Per Cent. Of Water Power Resources of Prairies Are Located in Manitoba

The considerable power resources of the Province of Manitoba are estimated at 5,000,000 h.p., of which 308,000 are already in operation. It is claimed that 72 per cent. of all the water power resources in the Prairie Provinces are located in Manitoba. The Winnipeg River sites are estimated to be sufficient to provide for a population of 2,500,000 in Winnipeg and to provide employment for 300,000 industrial workers. This power will turn out products worth in the neighborhood of a billion dollars every year.

More Studies In Paris

Latest registration figures of the University of Paris place the total enrollment at 2,500,000, indicating an increase of 2,500 over the preceding scholastic year. Large cutbacks must be made for more lecture halls, study rooms and laboratories.

Who (as they return from party): "Do you realize what you did?" Hubby: "No, but I'll admit that it was wrong. What was it?"

New Application Of Marconi's Invention

"Is that Signor Marconi? Could you light my lamps? The electricity company has cut off the current." —Guerini Mezzino, Milan.

W. N. U. 1846

Setting Pace In Egg-Laying Contest

Rhode Island Hen Has Lead Of Seven Points

Records of the Canadian egg-laying contest at the Dominion Experimental Farm, Ottawa, this year, show a 2.2 per cent. increase over last year and 3.5 per cent. higher in 1928 for the corresponding period. Birds entered in the laying competition produced with the approach of summer, 33 pens having reached or passed the fifty-egg mark during the thirty-second week of the contest.

It is interesting to note that those 33 pens are 21 white Leghorns.

While a pen of Barred Plymouth Rocks holds the leading position in the contest to date, the leading bird in the division layer pens is a Rhode Island hen. Two Barred Rock entries and this leading Rhode Island have laid the same number of eggs—but a slight advantage went to the Alpine Club of Canada, which has the best record in the official precision of England, with 16 birds among those 33 pens her nearest rival.

There is, however, indication that this year's egg-laying contest will be in the same general field as in egg production which has been in evidence each year since the contests were instituted in 1919. Some very fine records are likely to be hung up at the close of the contest.

Will Work On 'E. P. Ranch'

Two Lancashire Girls Take Jobs Offered By Professor Carlyle

Two Lancashire girls arrived in Canada yesterday from the Canadian liner "Duchess of Lancaster" en route to Peckham, Alberta, where they will start their careers on the "E.P. Ranch."

The two girls, Lucy and Margaret, sister said, "We do not know what we are going to do out there; it may be clerical or it may be housework. But that doesn't matter. Professor Carlyle, manager of the Prince of Wales Ranch, engaged us to help him build a farm and ranch to the new job as we are seeing our brother who is coming from Scotland to meet us."

Both girls are in the office of a grocery business in Blackpool and her younger sister, Muriel, was in the public library at Blackpool.

Fruit Crop Prospects

Prospects For 1930 Crop Are Considered To Be Good

The fruit crop prospects for 1930, as on June 1st, are encouraging, and, generally speaking, indicate the possibility of a better crop than in 1929, according to the Department of Agriculture's crop report No. 2. Cherries, plums, peaches, pears, grapes, and indicate a general improvement last year, ranging from 9 per cent. in the case of cherries to 34 per cent. for plums. Apples promise well and while the total crop is expected to be less than last year, production probably will yield a good or slightly heavier than the average commercial crop for the five-year period 1925-29, estimated at 3,178,124 barrels.

B.C. Canned Salmon

Importance of Coast Industry Is Shown By Figures

Shipments of British Columbia canned salmon from Vancouver to ports outside of Canada in 1929 amounted to 1,125,607 cases of 48 pounds each, indicating the importance of the Pacific Coast salmon industry as a factor in the foreign trade of Canada. American salmon continues to be first among the purchasers, with France second and the British Isles third. Thirty different countries are customers of the British Columbia canned salmon exporters last year.

Does Not Indicate Hard Times

That the American people are still "rolling along" on rarer times is evidenced by the Matson Lines' latest figures of arrivals for forty-three states of the Union, which show use of 26,000,000 gallons daily, or 7.1 per cent. more than in the corresponding month of 1929. This does not look as much like "hard times" or decreased purchasing power.

There are upwards of 1,500 post-women delivering mail in various parts of England.

The London city directory contains such names as Goboden, My. Whiff, Omo, Cops and Looney, Department.

CENTER FOR ALPINE CLIMBING

ALPINISTS.—*Cooper National Park*

High Milling Quality Of Canadian Wheat Flour Is Proven Under Rigid Tests

New Provincial Park For British Columbia

Is One Of World's Finest Stands Of Timber

Cameran Lake Forest, on Vancouver Island, one of the world's finest stands of timber, will be made a provincial park under a plan recently announced by Premier Tolmie. As a first step in this project, probably the most important ever undertaken by the province to preserve a valuable forest, the Canadian government entered an immediate cruise of the entire Cameran Lake area. This will be undertaken by the provincial forestry service and a report will be filed with the government.

The Cameran Lake Forest, known to travellers from every part of the world, lies between the lake and the town of Port McNeill, a village containing about 1,000 inhabitants. It consists of giant fir, cedar and balsam, growing close together and reaching to such heights that the island highway, winding between them, is in twilight on a sunny day.

Women's Institutes

1,150 Women's Institutes In The Province Of Ontario

There are now 1,150 women's institutes in the rural districts of the Province of Ontario with a membership of over 40,000. These institutes exist for promoting social contacts among whatever is available, especially to women and children, through cooperative effort.

The movement, started in Stoney Creek, Ontario, in 1907, has never been weaker. In Canada, however, wherever they exist, are non-sectarian and non-political. Recently an international conference of representatives of Women's Institutes was held at Vienna, Austria, at which delegates from many of the important countries were present.

The high milling quality of Canadian wheat flour has recently been further proved by the Research Department of the Board of Grain Commissioners of Canada. As a result of a series of coining tests, a result of which showed that of 20 to 60 per cent. respectively of Canadian flours with weaker flours grown in Canada contain 45 per cent. milled from 48 to 49 per cent. more culmen flour than that the country's domestic flour will produce. The largest loaf made during the tests was made from Canadian flour. Samples of Russian, French, Australian, German, Danish, Argentine and other wheats were used in the tests. Flour was milled from the samples obtained and the results compared with the results of the flour from the flour and the results carried out.

The addition of 20 per cent. Canadian flour with the unbleached flour from the wheat of each country was then added and the size of the loaf which was increased from 1/4 per cent. in the Russian to 25 per cent. in the Argentine. An increase to 35 per cent. of Canadian wheat made an additional improvement in the size of the loaf.

Canadian Tobacco Industry

Considerable Quantity Of Canadian Product To Be Shipped To England

If the tobacco situation, the government will not hesitate to appoint a special commissioner in England to look after the interests of the Canadian tobacco growers," stated Hon. James MacLennan, Minister of Trade and Commerce, in commenting on the tobacco domestic situation.

"The Canadian Government is in close touch with the tobacco growing industry," said Hon. Mr. MacLennan, "and through Canadian agents in Great Britain, has already put the British manufacturer in close touch with Canadian growers. It is expected a considerable quantity of Canadian tobacco will be shipped to Great Britain this year," he said.

Produces Better Eggs

Poultry Experts Find Large Hen Lays Better Than Any Other

Of the many fowl diseases affecting what "Take-All" or foot rot is the most destructive, observers of the Dominion Department of Agriculture, at Ottawa. The actual loss caused by the disease is not only telling when the bird is emplanted, but also giving the location of the disease, which is a problem of considerable difficulty in dealing with all known fowl diseases affecting wheat. The peculiar thing about this disease is that it appears only once in a series of years. Fortunately for Canada, the experts of the department have the benefit of the substantial support of Western farmers, who kept the disease from becoming seriously established in Canada.

When Fate Was Cruel

Income Tax Papers Only Mail Rescued From Brewed Steamer

Of 130 mail bags on a steamer wrecked on Shetland only four have been washed ashore and of these only one contained income tax papers in a condition fit for distribution. This was a bag of income tax papers of Style No. 3133 is designed for use in small towns and cities, being 15 inches long, 13 inches wide, 12 inches high, and weighs 42 inches. THE CHRONICLE, CHAMPION, ALBERTA

WRIGLEY'S
WRIGLEY'S is good company
on any trip.

It's delicious flavor adds zest
and enjoyment. The sugar sup-
plies the taste and energy when
the day seems long.

In short it's good
and good for you!

CK 11 After Every Meal

SILVER RIBBONS

CHAPTER XX.—Continued.

"Since the hair itself appears to have been dipped in star dust," was the gallant response, "their absence is not noticeable."

"You are a base flatterer," declared Captain Carter, who had turned away, thinking what had been plain "the gold bar of heaven" had been "the gold bar of hell!"

But the doctor liked his fancy, and Grandma, who had become accustomed to the appellation merely, said when her face sobered, and she replied: "You're noticed I, too, sonny!"

He nodded, saying thoughtfully: "Something's gone out of her." For last night a boy had come to see him, and he had said, "I'll pay you off." She sat on edge. Last night I ventured to ask if she didn't feel well, and—she took my head off!"

He grimed at the memory, while Captain Carter chortled. "I say, 'Sometimes she gets that way. Chairman's a good girl, but she's not saintly, and I'm glad of it. She's human like all the Davies'. I'll tell you what's the matter, Doctor, but you mustn't let on a soul of it. It's Jimmy Bennett."

John Carter didn't suspect that Grandma's wise old eyes were watching him to see if he would fall for it. His heart lifted suddenly, as if her words surprised him, and he echoed: "Bennett! You mean she . . . ?"

"I don't mean anything . . . of the sort," he said, and then added: "I think before Jim went away Chairman did something that hurt his feelings. She misjudged him; and when she found out her mistake she felt just terrible. And she sent him a letter. I don't know what she said, but I took two stamps so she must have said considerable. That was all of a month ago, and he's never answered. For two weeks she hasn't mentioned a word about it; but you can depend upon it, that's just what alluring him now."

John Carter looked thoughtfully into space. Chairman had been telling him that his hand was getting cold. He seemed to pull himself back from somewhere at her words, and said: "Letters sometimes go astray, Grandmother. Don't she send from time to time?"

"Only a real card. Not—what you'd call a real affectionate card, either."

The doctor laughed, though his eyes still lit up with pleasure.

"I have another explanation," he insisted, as he resumed his meal. "I don't think Bennett liked me particularly; but it struck me that he'd be a darned nice chap if only he had the right sort of shoulder."

"Jimmy's the salt of the earth," said Grandma loyally.

"And he's in love with Chairman," added the doctor.

"Always has been," said the old lady, "and in my opinion the only

reason she's not in love with him is because he's always been too close. She's never had a chance to get away from him, or to speak, and not what a sprightly boy he is. She's used to him, same as she's used to the kitchen range and the front door; and I'll say for Jim that he's been every bit as useful to her as they have! I miss him like anything."

"From all appearances I should say that your granddaughter misses him too much," said Captain Carter, as he left. Grandma's eyes shone brighter, and proceeded to bring the dessert that Chairman had prepared: "Are you sure the letter was addressed properly?"

"That's one my 'ope," said Grandma, brightening. "Lizzie Baker was in yesterday and said she had a card from Sarah Bennett a week ago, and they were off somewhere on a trip all the time. I thought it must be me to whom she was more cheerful for a while. This is a good pie, isn't it? Chairman gets up early and isn't it?"

"She's no boozie, I do say," said Captain Carter. "She needs more sleep. Look here, Grandma, do things make harder for me—my being here?"

"My stars, no! Maybe I get a little tired, but I'm not a boozie, but it's an awful concern having you look after the furnace, sonny, to say nothing of the times you drop in to speak to me. Chairman said just yesterday she didn't see how she could keep up school work with her being here. Don't you get fretting over that. Take another piece of pie, Doctor. I'll please Chairman to think I'm not a boozie, but I am a real good cook, isn't she? She's a good girl, sonny, and she board her down next year she'll get a job at the hotel!"

"When she does," retorted the doctor, helping himself to a second glass, "I'll take my meals there!"

"You needn't bother to wash the dishes," said Grandma, when their meal was over. "I'm sure you started to clear the table. "I never even seemed right to me for you to pay for a meal and then clear up afterward. You leave 'em be!"

The doctor drew her a smile, but concluded as far as taste, nevertheless, as being the best dish, with hot water: "You forget the reduced price at which I eat. It was in the contract that I clean up when I have time; and so far as I know a mile beneath the path of everyday ocean liners—Philadelphia Ledger."

"Good land!" cried Grandma. "She lost her mind, or is Jimmy going to run it for her, the farm? I mean? Jim couldn't run his mother's mind if he was to try till Gabriel blew his trumpet!"

"It's more likely that she runs him," replied Miss Lizzie. "George K. told Jim that he could have his own place in the house if he had enough for a law suit now. Chairman's not it's all, I had a letter from Sarah Bennett, and you'd never guess that she was a widow. She bought a place out in California."

"Good land!" cried Grandma.

"She got to milk fruit trees, I mean? And a present of bread in hand, the same, and Sarah, and see if the letter's here."

"Thanks, sonny. Ezra comes early in the afternoon. It's real good of you to come at all. We're not on his side, being right here in the middle of this world. He says maybe it's against the law for an R.P.D. man to stop on Main Street, but if it's, he's not to blame. And if that's what it is, I'll be damned if I care!"

"Well," murmured the old lady to herself, "I wonder if John Carter is as good as he looks. I wonder if he's a good man, and we appreciate it."

"I wonder if he's a good man."

"I wonder if he's a good man."

"Thanks, sonny. Ezra comes early in the afternoon. It's real good of you to come at all. We're not on his side, being right here in the middle of this world. He says maybe it's against the law for an R.P.D. man to stop on Main Street, but if it's, he's not to blame. And if that's what it is, I'll be damned if I care!"

"Well," murmured the old lady to herself, "I wonder if John Carter is as good as he looks. I wonder if he's a good man, and we appreciate it."

"I wonder if he's a good man."

BORDER PATROL IS COMMENDED BY U.S. OFFICIAL

Washington.—The Canadian border patrol was credited by Representative Clancy, Republican, Michigan, with having "practically killed illicit liquor traffic across the United States border."

Emphasizing that the Canadian Government is "absolutely co-operating," Clancy contended that there was no significant increase in the activities of the United States patrol in operating its boats without running lights." He recently protested to the treasury department that this was the practice of the United States patrols.

While lauding the Canadian border patrol for its "honesty, courtesy, service and efficiency," the Michigan representative quoted E. W. Camp, former commissioner of customs, as describing the United States border patrol as "about 90 per cent crooked or inefficient."

Ciancy attributed the difference he perceived to the fact that "Canadians, in contrast to the Americans, have a respect and obey their liquor law because they have a good one. In the United States, he said, "we can't build our jails fast enough."

France Delays Naval Program

Will Open the Way For Naval Negotiations With Italy

Paris, France.—Foreign minister Aristide Briand has delayed the suspension of France's shipbuilding program until December, to open the way for naval negotiations with Italy. He told the Foreign Relations Committee of the Chamber of Deputies, at the same time, that "another war in Europe is impossible and fatalistic."

M. Briand assured the committee that the reason for "emotion concerning the relations between France and Italy."

Disclosing that no more ships would be put on the stocks in the French building program before next April, M. Briand said Briand said Premier Mussolini had been informed of that fact officially.

In conclusion, the foreign minister asserted that while Italy had demanded naval parity the Italian government never had furnished figures or arguments to justify the claim.

Must Import Wheat

Portugal Is Now Faced With a Serious Shortage

Lisbon, Portugal.—Because of a shortage of wheat, the National Association of Millers and Bakers has now work. No fear of a bread famine was felt, however, since army stocks are sufficient to keep up the daily supply without resort being made to a ration system until the government is able to ascertain the extent of the import of foreign wheat.

The public has been advised not to waste bread and the Minister of Agriculture has ordered all wheat merchants to declare their stocks so the government may be able to fix the quantity to be imported above the legal quota.

Alarming reports have reached Lisbon from certain parts of the interior where there is a serious corn shortage.

New Woman Member For British House

Fourteen Now in Parliament, Nine Being on Labor Side

London, England.—With the election of Lady Noel-Bethune to the House of Commons in the North Norfolk by-election, there are 14 women in parliament, the greatest number in history.

Of the 14, nine are Labor members; three Conservatives; one Liberal; one Independent; and the 14, Right Hon. Margaret Bondfield, Minister of Labor, is the first woman to become a member of the British cabinet, while another, Miss Susan Lawrence, is parliamentary secretary to the Ministry of Health.

Population of Prince Albert

Prince Albert, Saskatchewan.—Local civic officials and members of civic boost organizations are claiming a population of 12,000 for Prince Albert, which voted in the last election. They show there are 4,755 voters within the boundaries of the city. This new total is based on the contention that the number of those entitled to cast a vote is generally about one-third of the population.

Labor Government Escapes Defeat

Have Slim Majority On Critical Division in British House

London, England.—MacDonald Labor Government escaped defeat by the slim majority of three votes in a critical division on the Home of Commons on the finance bill. It was the smallest majority in this government's career, which was sustained by eight votes two months ago on the coal miners' bill and lost a vote on a clause of the coal bill before that.

The vote was against an amendment moved by Rt. Hon. David Lloyd George, a Liberal leader, who was pressing for consideration of improvements of plants of machinery would be rendered exempt from income tax.

Although it was a question which would affect the whole of Great Britain, the most outstanding opposition came from the chancellor of the exchequer, it was some of the Liberals who saved the government and further weakened the financial stability of the Liberal party in the House of Commons.

"They were D. Simon, of the Waddington division of Manchester; Sir Edward Edge, Leicestershire; Sir Robert Hartshorn, and Percy T. H. Bethnal Green. Both these senior Liberals, including Sir Godfrey Colling and Sir Donald McLean, abstained from voting.

Boy Scout Jamboree

First Official Jamboree Ever Held In Canada Staged At Prince Albert Park

Prince Albert, Ont.—A boy scout jamboree ever held in Canada was officially opened in Prince Albert National Park, with 476 scouts arriving the roll-call. Situated on beautiful Lake Winnipeg, the site of the camp is ideal, in every way.

"Big Beach" nearly half a mile long, paved with clear, white sand, and curving out to Prospect Point, offers fine bathing facilities, combined with picnic areas.

Weskatos Beach, the park headquarters and the site of the western summer home owned by Premier Mackenzie King, is a government camp. It includes a large kitchen, equipment, warden's quarters, service and filling stations.

Ban On U.S. Apples

Order Issued By British Government Effectively Between July 7 and November 15th

Toronto, Ont.—A. M. Wissman, British Minister of Agriculture, has received official information from the British government of an order just issued, prohibiting the importation of raw apples from the United States into the United Kingdom between July 7 and November 15.

Exceptions to the ban are: in barrels, United States fancy and United States choice; 1 lb. each, red and fancy. These must be accompanied by certificates signed by an authorized inspector of the United States department of agriculture.

It is believed that the embargo may be due to a fruit fly known as the "railroad worm" which is not believed to exist in England.

Disastrous Forest Fires

Loss In Northern Saskatchewan During Three Months \$138,929

Prince Albert, Sask.—Forest wealth of more than \$138,929 went up in smoke during the first three months in Northern Saskatchewan from April 1 to June 30, Dominion forestry office revealed. This figure covers only 105 of the 223 fires reported in that period. It includes the major conflagrations.

Including the disastrous fire at Birch Lake Park, 171,627 acres were burned over by the fires; 17,723,000 board feet of valuable saw timber burned, and 8,000,000 board feet of pulpwood.

Sixty fires consumed the 105,338 cords of fuel and pulpwood in fire areas are valuable. Causes of the fires are summarized as follows: 59, fires started by campers and travellers; 45, incendies; 34; railways; 14; smokers; 6; unknown; 6; lightning, 1, and lumbering 1.

Marksmanship At 78

Blailey Camp, England.—Sgt. Major John Hunt, 78 years of age, has won the King's silver clasp for Empire marksmen—though it was called the Queen's prize then—back in 1883. But if anybody thinks he is losing his eyes and steady aim, he can dispel that notion. The score card he hung up at the Blailey meet six consecutive bulls-eyes at 200 yards.

Testing Out Glider

Flight Across Atlantic May Be Attempted Later

New York.—A wireless message from the liner "Saturnia" revealed that the glider "Caliphine Foster" stayed in the air for eight hours, believed to be the longest ocean flight ever made.

The glider, named for the Broadway actress who is sponsoring the venture, is being taken to Gibraltar for an attempted east-west flight over the Atlantic Ocean. On the outward voyage practice flights were being made by the youthful owners, Hugh Keayney and Robert Lewis.

Had Narrow Escape

Martindale Man Left Grain Bin Just Before Wall Gave Way

Martindale, Sask.—J. E. Burke, agent for the North Star Grain Elevator Company, narrowly escaped being buried alive when the bin in the elevator, next to the one he had been cleaning, burst open, just as he had climbed up, pouring several bushels of grain into the space he had just vacated.

Had the breakage occurred but a few moments sooner, it is probable that Burke would have been hopelessly trapped in the bin, with little, if any, chance of getting out.

A man's life was saved by the quick action of Jean Francois Pouliot, former Liberal member of Parliament for Timiskaming, Que., who is prosecuting the case.

In a communication to Hon. Peter Heenan, Minister of Labor, was enclosed a copy of a newspaper circulated in the constituency of Timiskaming, which made the claim that the wholesale dealers "keep the market prices low when they purchase but accumulate it in cold storage for some time, selling it at an exorbitant price to the consumer."

"They thus deprive the farmer of his legitimate profits," says Mr. Pouliot.

The former member asked the minister to intervene under the Comber investigation Act.

IN MOTOR ACCIDENT

Duke of York, who figured in a motor collision on his way to the second cricket test match at Lord's. He was uninjured.

Investigate Butter Prices

Charge Made That Combines Exist Among Certain Producers

Ottawa, Ont.—Charges that a combination exists amongst certain produce companies with a view to depressing the price of butter to the producers must be investigated under the Investigation Act, at least in one section of Canada, if the representations of Jean Francois Pouliot, former Liberal member of Parliament for Timiskaming, Que., are prosecuted to the letter.

In a communication to Hon. Peter Heenan, Minister of Labor, was enclosed a copy of a newspaper circulated in the constituency of Timiskaming, which made the claim that the wholesale dealers "keep the market prices low when they purchase but accumulate it in cold storage for some time, selling it at an exorbitant price to the consumer."

"They thus deprive the farmer of his legitimate profits," says Mr. Pouliot.

The former member asked the minister to intervene under the Comber investigation Act.

Crooks Displace Decent Men

Given Election Posts In Chicago Despite Records

Chicago, Ill.—Throwing an illuminating light upon Chicago election districts, the ability of dishonest crooks to get into public life from minor positions to the chief posts of the state and the bench, a supplemental petition has been filed before Count Justice Edmund Maguire.

The petition movement, especially designed to get men strike in an industrial country intended to coerce the government by mass pressure instead of argument."

In reference to the Simon commission, it is charged that the proposed round-table conference in London next autumn, Lord Irwin said:

"The responsibility of expressing a considered opinion on the development of the government of India—and justly must be regarded as subversive and dangerously subversive."

"Therefore, on account of its natural development and development which is to be expected, it is nothing but the application of force to the other countries. And when it is avowedly intended to make government impossible, the government is bound to resist to a radical.
